Folks. Just got off the phone with Andy. The JIC is coming together as we speak. The local county will be sending a PIO. I am not currently needed at the site, although this may change. I will work with our team, county, Buckeye, on any related press releases. My BB is 312 898 2042. My cell is 213 703 1635. Thanks. F

Mark & Cisco - Thanks for agreeing to help!

Andy Maguire (cell: 312-758-8672) is now in charge of this incident and needs some remote assistance from PIO (Cisco) and ATSDR (Mark). A press article appeared this morning with a quote from the Health Dept. official recommending residents test their water. The responding agencies/PRP are forming a JIC. Andy

anticipates they will need to get some info out today to the public. It is my understanding that they plan to formulate a plan to get out and sample people's water.

I am attaching the current Press Fact Sheet distributed yesterday and will forward the initial POLREP in my next email.

Cisco and Mark - Please look at the information available so far (POLREP, press articles) and call Andy on his cell for instructions.

By the way, there is a related story today in the same paper talking about the regional water supply:
